

## Cover Picture

**Ralf Haiges, Ashwani Vij, Jerry A. Boatz, Stefan Schneider, Thorsten Schroer, Michael Gerken, and Karl O. Christe**

**The cover picture shows** a packing diagram of antimony triazide. Its motif closely resembles the three legged Manx symbol of the Isle of Man. The backdrop shows the harbor of Ramsey on the Isle of Man. For more information on the synthesis and characterization of both antimony and arsenic triazides see the paper by K. O. Christe, R. Haiges, A. Vij, et al. on p. 508 ff.
